

SUMMARY REPORT TRACER SURVEY RESULTS FOR SKILLS AND ENGAGEMENT PROGRAMS

An assessment of program delivery and employment outcome for skills and engagement programs implemented between 2020 and 2022

BACKGROUND

The erstwhile Ministry of Labour and Human Resources (MoLHR) provided different school-to-work transition (STWT) support to jobseekers in the form of skilling and engagement programs. Some of STWT support included Critical Skills Training (CST), Youth Engagement and Livelihood Program (YELP), Skills Development Program (SDP), Build Bhutan Program (BBP), Special Skills Development Program (SSDP), Village Skills Development Program (VSDP), and Entrepreneurship Development Program (EDP).

A tracer survey was conducted in December 2022 for the 2020–2022 graduate cohorts for the above programs.

OBJECTIVES

- Provide an understanding of the demographic background and profile of beneficiaries for the skills and engagement programs.
- Assess the effectiveness of the program by gathering data on employment outcomes, program satisfaction, and overall success to evaluate the results of the program.
- Assist relevant agencies and program managers to use the survey results in future program design and modification to enhance the result of any skills or engagement program interventions.

SKILLS TRAINING PROGRAMS

RESPONSE RATE

FULLY COMPLETE SURVEYS

4753

graduates of skills training programs from 2020-2022
