Ref: DSE/SPCD/SIT-3.4/2020/ 079

16th January 2020

Dasho Dzongdag/Executive Secretary,
All Dzongkhags & Thromdes.

Subject: Training on Coding

Dear Sir,

As part of Education Flagship Project, the Ministry of Education in Collaboration with Royal Education Council (REC) is working towards introduction of Coding Education in Bhutanese Education System from grade PP-12 from 2020 academic session.

Accordingly, the Ministry and REC is working with Leap Learner (a coding education platform that aims to cultivate self-learning and 21st-century skills among students worldwide and prepare them for the world of tomorrow) to train our teachers to equip them with knowledge, skills and competencies in teaching coding to our children in two batches (first batch - 23rd January-3rd February 2020 and second batch from 5th to 16th February 2020). All the ICT teachers of schools with ICT lab will be trained on Scratch and Python that will be introduced in our school Curriculum.

Therefore, we would like request Dasho to kindly relieve them to attend the program as per list to the identified Venue and the date. Kindly also instruct all the participant to bring their own laptops (minimum window 8) and four-way socket.

If any clarification required please contact Mr. Yeshey Lhendup, Deputy Chief at 17799090 or yesheylhendup@moe.gov.bt.

The TADA will be borne by the organizer.

Thanking you

Yours sincerely

(Karma Tshering)
Offtg. Secretary
