16th December 2022

**Notification on Academic Result 2022**

The results for home examinations for the academic year 2022 were supposed to be processed online through the EMIS. As the Academic Module of the EMIS System has been experiencing technical issues, the Ministry of Education would like to request all the Schools who could not complete the process online, to process results offline and declare the results as in the past. However, as the academic module is an integral part of the EMIS, the schools are requested to continue entering the marks in the EMIS.

In the meantime, the ICTD of the Ministry is working with the local vendor (New Edge) to rectify the glitches at the earliest.
